CAREER OBJECTIVE

Computer Science undergraduate with a strong foundation in software development, programming, databases, and problem solving. Experienced in building practical projects and working with modern technologies across software and application development. Seeking an entry-level opportunity to apply technical skills, learn new technologies, and contribute to impactful software solutions.

EDUCATION

KG Reddy College of Engineering and Technology	Moinabad, Telangana,
Bachelor of Computer Science and Engineering, AI/ML	September 2023 - Present
Specialization	
CGPA: 8.49	

WORK EXPERIENCE

FlyRank AI	Remote
Backend AI Engineer Intern	Jul 2026 - Present

- Developed production-ready server side AI systems with retrieval, structured outputs, API contracts, tool-calling workflows, and robust error handling.
- Built lightweight evaluation datasets and harnesses to measure model performance against strict correctness and auditing rubrics.

Hackveda Solutions Private Limited	Remote
Python Developer Intern	Feb 2026 - May 2026

- Developed Python data-analysis programs to find and evaluate trading trends in investment companies.

PROJECTS

ProjectPulse	Live Demo
- Developed an AI powered project management platform using Next.js, PostgreSQL, Prisma, and Tailwind CSS with project tracking, Kanban workflows, budget monitoring, and real-time collaboration. - Implemented role-based access control and AI driven project-risk assessment using Mistral AI with rule-based fallback analysis.	

Kaufee-Home

- Built a privacy-first local desktop AI agent using Python, Ollama and SQLite, enabling natural-language file search, application launching, system monitoring and filesystem operations. Implemented tool calling, permission-gated execution and voice-driven workflows with local speech recognition and text-to-speech.

BharatVaani

- Developed a fully offline multilingual Android translator using Kotlin, Jetpack Compose, and Google ML Kit, supporting bidirectional translation across five languages, and integrated offline speech recognition and TTS using Vosk and Android TTS with MVVM, Repository Pattern, and Hilt for modular architecture.

ACHIEVEMENTS

- IKARUS 2024:** First Prize Winner, Inter-College Technical Fest.
- Best Student Award 2025,** CSE-AIML

SKILLS

Technical Skills: Python, SQL, LLM Applications, AI Agents, RAG, NLP, Prompt Engineering, Tool Calling, FastAPI, REST APIs, PostgreSQL, SQLite, Supabase, React, Next.js, Git, GitHub

Soft Skills: Communication, Problem Solving, Team Collaboration
